Subject Index to Volume 5

Acetylator phenotype, hydrallazine and beta-blockade in refractory hypertension with characterization of acetylator phenotype, 530
Achlorhydria, symptomatic hypergastrinaemia with; relief by antrectomy, 356
Acinetobacter anitratus infections in man, 435
Acromegaly, regression following pituitary apoplexy, 369
Adenine phosphoribosyltransferase deficiency; its inheritance and occurrence in a female with gout and renal disease, 440
ADH secretion, inappropriate, associated with massive vincristine overdosage, 266
Adrenocorticotrophic, ectopic, hormone production and neoplasm, 270
Alcoholism, the spectrum of liver disease in, 49
Allopurinol and clofibrate, effects on the elimination of coumarin anticoagulants in man, 324
Anaemia, megaloblastic, and iron deficiency anaemia, the bone marrow colony forming cell in, 424
Anaemia, refractory, cobalt chloride in treatment in patients undergoing long-term haemodialysis, 306
Ankylosing spondylitis and Reiter's syndrome, the significance of HL-A W27 with three family studies, 108
Antibiotic treatment, diarrhoea and colitis associated with, 340
Antigen, hepatitis B, auto-antibodies and liver disease in a haemodialysis and transplantation unit, 314
Antrectomy, relief by; symptomatic hypergastrinaemia with achlorhydria, 356
Aortic valve replacement following cadaver renal transplantation, 154
Aplasia, pure red cell, associated with malignant lymphoma, histiocytic type, successful use of combination chemotherapy in, 469
Apoplexy, pituitary, regression of acromegaly following, 369
Arthritis, rheumatoid, salicylate therapy and drug interaction in, 518
Aspirin administration, reduction of platelet/fibrin deposition in haemodialysers by, 117
Asthma, exercise induced, inhaled and oral bronchodilator therapy in, 544
Asthma and chronic lung disease in coastal Papua New Guinea, a clinical and lung function study of, 329
Atrial fibrillation, controlled, haemodynamic effect of intravenous verapamil in, 420
Australian Aborigines, nutrition in the; effects of the fortification of white flour, 123
Auto-antibodies, hepatitis B antigen and liver disease in a haemodialysis and transplantation unit, 314
Auto-antibodies and hepatitis B antigen in chronic liver diseases in Hong Kong, 23

Beta-blockade and hydrallazine in refractory hypertension with characterization of acetylator phenotype, 530
Bile, interaction with erythromycin lactobionate *in vitro*, 25
Bile salt *in vivo*, unconjugated, inhibition of intestinal amino acid absorption by, 430
Biochemical screening, multiphasic, the effect on the diagnosis of primary hyperparathyroidism, 224
Blood vitamin levels in children with gastroenteritis, 239
Bone marrow colony forming cell in megaloblastic anaemia and iron deficiency anaemia, 424

Cancers, lung, cavitation in, 523
Candidiasis, chronic muco-cutaneous, treatment by lymphocyte transfer factor, 318
Carbenoxolone sodium, effect on the plasma 11 hydroxycorticoid levels in chronic gastric ulceration, 231
Carcinoma, islet cell, producing insulin and gastrin, prolonged control of hypoglycaemia by 1-asparaginase in, 466
Carcinoembryonic antigen (CEA); ten years' perspective, 169
Cardiac arrest, a study of serum and myocardial digoxin concentrations in man during, 202
Cardiomyopathy, familial hypertrophic, and lentiginosis, 359
Cardiovascular, assessment of side effects of therapeutic doses of tricyclic anti-depressant drugs, 7
Cavitation in lung cancers, 523
Chlorthalidone and spironolactone, effect of high dose in essential hypertension; relation to plasma renin activity and plasma volume, 17
Clindamycin, the effect of impairment of renal function and dialysis on the serum and urine levels of, 198
Clofibrate and allopurinol, effects on the elimination of coumarin anticoagulants in man, 324
Cobalt chloride in the treatment of refractory anaemia in patients undergoing long-term haemodialysis, 306
Coeliac disease, a family study of, 250
Colitis and diarrhoea associated with antibiotic treatment, 340
Contraceptives, oral, and acute coronary artery disease, 12
Coronary artery disease, acute, and oral contraceptives, 12
Coumarin anticoagulants in man, effects of allopurinol and clofibrate on the elimination of, 324
Cytogenetic studies of the spleen in chronic granulocytic leukaemia, 295

Dementia, dialysis-associated, 62
Dialysis and renal function, the effect of impairment on the serum and urine levels of clindamycin, 198
Dialysis-associated dementia, 62
Diarrhoea and colitis associated with antibiotic treatment, 340
Diphenylhydantoin, decreased capacity to metabolize in a patient with hypersensitivity to warfarin, 462

Diphenylhydantoin sensitivity; a syndrome resembling infectious mononucleosis with a morbilliform rash and cholestatic hepatitis, 561
Drug surveillance, extensive; a pilot study, 336

ECG Monitor, new, which detects and classifies ventricular extrasystoles, an evaluation of, 219
Ectopic adrenocorticotrophic hormone production and neoplasm, 270
Emphysema in Papua New Guinea; a pathological study, 147
Endocarditis, infective, in a Sydney teaching hospital—1962–1971, 413
Epidemic polyarthritis; a cytological, virological and immunochemical study, 450
Erythromycin lactobionate *in vitro*, interaction of bile with, 25
Extrasystoles, ventricular, an evaluation of a new ECG monitor which detects and classifies, 219

Factor XIII deficiency in two Melanesian families from Papua New Guinea, 373
Fibrillation, controlled atrial, haemodynamic effect of intravenous verapamil in, 420
Frusemide and hypertonic saline, rapid correction of water intoxication by, 557

Gastric glycoproteins in chronic peptic ulcer, 507
Gastric ulcer, the prevalence of chronic gastritis in patients with, 133
Gastric ulceration, chronic, the effect of carbenoxolone sodium on the plasma 11 hydroxycorticoid levels in, 231
Gastritis, chronic, prevalence in patients with gastric ulcer, 133
Gastroenteritis, blood vitamin levels in children with, 239
Gastrointestinal distress, functional, efficacy of two minor tranquilizers in relieving symptoms of, 503
Glomerulonephritis, IgA-associated, 97
Gout and renal disease, its inheritance and occurrence in a female with; adenine phosphoribosyltransferase deficiency, 440
Guillain Barré syndrome during the pre-icteric phase of acute type B viral hepatitis, 367

Haematuria, recurrent macroscopic, and properdin, 191
Haemodialysers by aspirin administration, reduction of platelet/fibrin deposition in, 117
Haemodialysis and transplantation unit, hepatitis B antigen, auto-antibodies and liver disease in a, 314
Haemodialysis, cold agglutinin formation in patients undergoing; a possible relationship to dialyser re-use, 195
Haemodialysis, long-term, cobalt chloride in the treatment of refractory anaemia in patients undergoing, 306
Haemodynamic effect of intravenous verapamil in controlled atrial fibrillation, 420
Hageman factor deficiency with myeloid leukaemia, 155
Heparin, low dose, and early kidney transplant function, 537
Hepatic biliary obstruction, extra, plasma lipids in, 540
Hepatitis, acute type B viral, Guillain Barré syndrome during the pre-icteric phase of, 367
Hepatitis B antigen and auto-antibodies in chronic liver diseases in Hong Kong, 235
Hepatitis B antigen, auto-antibodies and liver disease in a haemodialysis and transplantation unit, 314
Histiocytic medullary reticulosis, 347
HL-A W27 in ankylosing spondylitis and Reiter's syndrome with three family studies, 108
Hodgkin's disease, phenytoin sensitivity in a case of phenytoin-associated, 144
Hydrallazine and beta-blockade in refractory hypertension with characterization of acetylator phenotype, 530
Hypercalcaemia, urinary cyclic AMP in diagnosis and management of studies of patients without primary hyperparathyroidism, 32
Hypergastrinaemia, symptomatic, with achlorhydria; relief by antrectomy, 356
Hyperlipoproteinaemia, type V, re-visited; findings in a Sydney population, 210
Hyperparathyroidism, primary, the effect of multiphasic biochemical screening on the diagnosis of, 224
Hyperparathyroidism, primary, urinary excretion of cyclic AMP in, 36
  studies of patients without primary, urinary cyclic AMP in diagnosis and management of hypercalcaemia. 32
  tertiary, 551
Hypertension, essential, effect of high dose spironolactone and chlorthalidone in; relation to plasma renin activity and plasma volume, 17
Hypertension, refractory, hydrallazine and beta-blockade in, with characterization of acetylator phenotype, 530
Hypertonic saline and frusemide, rapid correction of water intoxication by, 557
Hypertrophic cardiomyopathy, familial, and lentiginosis, 359
Hypoglycaemia, prolonged control by 1-asparaginase in islet cell carcinoma producing insulin and gastrin, 466

IgA-associated glomerulonephritis, 97
Infectious mononucleosis, a syndrome resembling, with a morbilliform rash and cholestatic hepatitis; diphenylhydantoin sensitivity, 561
Infective endocarditis in a Sydney teaching hospital—1962–1971, 413
Intestinal amino acid absorption, inhibition by unconjugated bile salt *in vivo*, 430
Intestinal enzyme activities, effect of stasis on, 141
Intra-articular ^{169}Yb-DTPA, detection of synovial cysts by transmission-emission scintigrams following, 256
Ionic fluxes across the human stomach, effect of prednisolone and salicylic acid on, 408
Iron deficiency anaemia and megaloblastic anaemia, the bone marrow colony forming cell in, 424

Kidney transplant function, early, and low dose heparin, 537

Lactulose, the rectal administration of, 137
L-asparaginase, prolonged control of hypoglycaemia in islet cell carcinoma producing insulin and gastrin, 466

Lentiginosis and familial hypertrophic cardiomyopathy, 359
Leucocyte function in paraproteinaemia, 39
Leukaemia, chronic, diagnostic and therapeutic approach to (review), 566
chronic granulocytic, cytogenetic studies of the spleen in, 295
myeloid, a case of Hageman factor deficiency with, 155
Liver disease, hepatitis B antigen, and auto-antibodies in a haemodialysis and transplantation unit, 314
in alcoholism, the spectrum of, 49
the relationship of red cell membrane lipid content to red cell morphology and survival in patients with, 101
Liver diseases in Hong Kong, chronic, hepatitis B antigen and auto-antibodies in, 235
Lung cancers, cavitation in, 523
Lung disease, chronic, and asthma in coastal Papua New Guinea, a clinical and lung function study of, 329
Lung function differences, observations on Maori-European, 44
Lymphoma, malignant, histiocytic type, successful use of combination chemotherapy in pure red cell aplasia associated with, 469
Lymphoma with T-cell characteristics, 158

Malnutrition, some aspects of childhood; classification, long term effects, experimental analogies, 87
Megaloblastic anaemia and iron deficiency anaemia, the bone marrow colony forming cell in, 424
Meningitis, salmonella, treatment with intravenous trimethoprim, 364
Mitral, silent, regurgitation, 65
Mitral valve syndrome, floppy; review of fourteen patients requiring valve surgery, 112
Mycobacterium ulcerans in Australia, 162
Myeloid leukaemia, a case of Hageman factor deficiency with, 155
Myocardial digoxin concentrations and serum in man during cardiac arrest, a study of, 202
Myocardial infarction, acute, tachyarrhythmias in, 3
pericarditis in, 1

Necrosis, papillary, in renal allografts, 69
Neoplasm and ectopic adrenocorticotrophic hormone production, 270
Nutrition in the Australian Aborigines; effects of the fortification of white flour, 123

Paget's disease in identical twins, 564
Papillary necrosis in renal allografts, 69
Papua New Guinea, emphysema in; a pathological study, 147
Paraproteinaemia, leucocyte function in, 39
Peptic ulcer, chronic, gastric glycoproteins in, 507
serum gastrin in Chinese patients with, 515
Pericarditis, constrictive, following mild non-penetrating trauma, 57
in acute myocardial infarction, 1
Phenytoin sensitivity in a case of phenytoin-associated Hodgkin's disease, 144
Pituitary-testicular response to luteinising hormone releasing hormone administration to normal men, 227
Plasma 11 hydroxycorticoid levels, the effect of carbenoxolone sodium in chronic gastric ulceration, 231
Plasma lipids in extra hepatic biliary obstruction, 540
Platelet/fibrin deposition in haemodialysers by aspirin administration, reduction of, 117
Polyarthritis, epidemic; a cytological, virological and immunochemical study, 450
Prednisolone and salicylic acid, effect on ionic fluxes across the human stomach, 408
Primary hyperparathyroidism, the effect of multiphasic biochemical screening on the diagnosis of, 224
Properdin and recurrent macroscopic haematuria, 191
Pyelo-ureteritis cystica associated with a urinary tract infection due to a coagulase-negative staphylococcus, 447

Rectal administration of lactulose, 137
Reiter's syndrome and ankylosing spondylitis, the significance of HL-A W27 with three family studies, 108
Renal allografts, papillary necrosis in, 69
Renal disease and gout, its inheritance and occurrence in a female with: adenine phosphoribosyltransferase deficiency, 440
Renal failure in Victoria, chronic, a forecast of requirements for the treatment of, 401
Renal function and dialysis, the effect of impairment on the serum and urine levels of clindamycin, 198
Renal transplantation, cadaver, aortic valve replacement following, 154
Reticulosis, histiocytic medullary, 347
Rheumatoid arthritis, salicylate therapy and drug interaction in, 518

Salicylate therapy and drug interaction in rheumatoid arthritis, 518
Salicylic acid and prednisolone, effect on ionic fluxes across the human stomach, 408
Saline, hypertonic, and frusemide, rapid correction of water intoxication by, 557
Salmonella meningitis treatment with intravenous trimethoprim, 364
Serum and myocardial digoxin concentrations in man during cardiac arrest, a study of, 202
Serum gastrin in Chinese patients with peptic ulcer, 515
Spirometric standards from 387 healthy New Zealand children, 260
Spironolactone and chlorthalidone, effect of high dose in essential hypertension: relation to plasma renin activity and plasma volume, 17
Spleen, cytogenetic studies in chronic granulocytic leukaemia, 295
Spondylitis, ankylosing, and Reiter's syndrome, the significance of HL-A W27 with three family studies, 108
Staphylococcus, coagulase-negative, pyelo-ureteritis cystica associated with a urinary tract infection due to, 447
Stasis, effect on intestinal enzyme activities, 141
Synovial cysts, detection by transmission-emission scintigrams following intra-articular ^{169}Yb-DTPA, 256

Tachyarrthythmias in acute myocardial infarction, 3
Tertiary hyperparathyroidism, 551
Thyroid storm, rational therapy for, 458
T_4 thyrotoxicosis with normal or low serum T_3 concentration, 432
Tricyclic anti-depressant drugs, assessment of cardiovascular side effects of therapeutic doses of, 7
Trimethoprim, intravenous, salmonella meningitis treatment with, 364

Ulcer, chronic peptic, gastric glycoproteins in, 507
gastric, the prevalence of chronic gastritis in patients with, 133
peptic, serum gastrin in Chinese patients with, 515
Ulceration, chronic gastric, effect of carbenoxolone sodium on the plasma 11 hydroxycorticoid levels in, 231
Urinary cyclic AMP in diagnosis and management of hypercalcaemia; studies of patients without primary hyperparathyroidism, 32
Urinary excretion of cyclic AMP in primary hyperparathyroidism, 36
Urinary tract infection due to a coagulase-negative staphylococcus, pyelo-ureteritis cystica associated with, 447

Ventricular extrasystoles, an evaluation of a new ECG monitor which detects and classifies, 219
Verapamil, intravenous, haemodynamic effect in controlled atrial fibrillation, 420

Warfarin, decreased capacity to metabolize diphenylhydantoin in a patient with hypersensitivity to, 462
